Home Maintenance and Repair

You love your home and want to take good care of it. But the high cost of labor means you have to pick and choose what gets fixed and what gets put off until next month – or even next year.

It doesn't have to be that way.

Imagine being able to take care of your home yourself. You'll save tens of thousands of dollars each year by doing your own home maintenance and repairs. Plus, you won't have to rely on expensive contractors.

Learn How to Repair and Maintain Your Home

We have years of experience as highly skilled professionals in construction, home inspection, and home repair. Our mission is to give homeowners the knowledge and skills they need to care for their own homes. That's why we create high quality, do-it-yourself, home improvement instructional videos.

Our videos take you through every step of the home inspection, repair, and maintenance process without missing a single step or skimping on details. We make sure you have the all the knowledge and information you need to care for your own home.

Home Repair and Maintenance Videos

If you have home damage that needs to be repaired immediately, you can [download our home repair videos](#) and access them right away. Or, you can order a [home repair DVD](#), which will be shipped to you directly. Each video comes complete with a written project guide, and our DVDs include a one-year money-back guarantee.

Home Inspection Video: Identifying Problems Throughout Your Home

Title: Identifying Problems Throughout Your Home

Description: Home Inspection Video

Home Inspection

Your house is more than a big investment; it's also your home. Periodically, you need to inspect your home to see if repairs or maintenance work need to be done and to ensure that your home is still safe and in healthy condition.

Finding home problems that need to be fixed is never a pleasant experience, but identifying these problems early can be critical. Home damage only worsens over time and becomes costlier the longer it goes unattended.

A home inspection doesn't have to be stressful or expensive. By learning how to check your home for damage, you will save yourself the financial and emotional cost of larger repairs later.

Learn How to Inspect your Home for Damage

Our home inspection DVD teaches you how to identify problems throughout your house. We'll show you how to check for home damage, wear and tear, and regular maintenance in detailed, step-by-step instructions. We'll show you how to examine:

- Kitchen, bathrooms, and garage
- Interior walls, windows, doors, and flooring
- Attic, roof, and chimney
- Exterior walls, outside structures, and foundation
- Swimming pools, electrical systems, and safety concerns

Toilet Repair and Replacement

Title: Toilet Repair and Replacement

Description: Toilet repair video

Toilet Repair and Replacement

Did you know that all the parts you need to fix a standard toilet can be purchased for under \$20? And because of our chlorinated water supply, all toilet insides should be replaced every five years.

As a homeowner, you want to make sure your house is in good repair. Toilet problems are a nuisance, and they can be costly when you have to hire a contractor to perform basic care and maintenance or minor fixes.

You can save time and money and avoid the hassle of hiring contractors by learning how to repair or replace a toilet on your own.

Learn How to Fix a Toilet

The best way to learn how to fix a toilet is to watch professionals do it. Let us walk you through the steps and show you how to fix a toilet in no time with our easy-to-follow home repair instructional videos.

Our toilet repair and replacement video shows you how to fix a toilet, how to replace toilet parts, and how to replace an entire toilet. From simple problems like unclogging a toilet to more complex repairs such as replacing parts, our videos walk you through each step:

- Unclogging a toilet, replacing a flush lever, and toilet seat replacement
- Valve replacement: water supply, ball-cock or fill, flush, and flapper
- Compression ring removal and wax ring replacement
- Flange and sub-floor repair (includes cement slab instructions)
- Toilet replacement

Repairing Drywall

Title: Repairing Drywall and Matching Texture

Description: Drywall Repair video

Drywall Repair and Texture Matching

Our walls get a lot of use. We make nail holes to hang pictures, push furniture up against the walls, and sometimes accidents happen and we end up with large wall holes. Other types of damage can occur, too. Water leaks and shifts in the foundation are common causes of drywall problems.

Sometimes, drywall repair is quick and easy. In fact, it can cost just a few dollars to fix a nail hole. Other times, it's more involved and costlier. Contractors can be expensive, and scheduling appointments is always a hassle.

The good news is that if you learn how to patch a hole and make other repairs to your walls, you'll be able to get it done quickly. Plus, it will be a lot more affordable. Whether your drywall repairs are basic or complex, we can show you how to do them all yourself.

Learn How to Repair Drywall

Our drywall repair video teaches you how to fix any drywall hole in your house and shows you how to match wall texture and remove popcorn-ceiling texture. Some of the fixes covered in our video on repairing drywall and matching textures include:

- Patches: pumpkin, lath strip, peel, screen, stud, electrical box
- Repairing nail holes, repairing corner bead, installing round corner bead
- Removing popcorn texture and removing wallpaper
- Floating a wall and installing mounting brackets
- Mixing patch mud and spray mud
